

Looking for the ideal solution in Marinades?  
With Essenso Marinade you will find the right partner to develop exactly the type of product you have in mind.

**Essenso Marinade** is a complete concept that provides you with the desired taste profile for all your marinades. It is composed of different types of solutions for several kinds of applications:

#### **Essenso Marinade Dry Rubbing**

Dry rubbing marinades: a variety of decorative blends with distinctive flavour profiles. Are you looking for the typical hot Cajun taste, or the well balanced flavour of Provencal herbs? With *Essenso Marinade Dry Rubbing* this can be customised especially for you. And, on top, *Essenso Marinade Dry Rubbing* provides real appetite appeal with its attractive coating of dried herbs and spices.

#### **Essenso Marinade Easy Fix**

With *Essenso Marinade Easy Fix* you can easily create your required tastes, adapted to your own unique processing techniques. *Essenso Marinade Easy Fix* is totally soluble and brings a rounded flavour and succulent character to your product. Looking for an all-round chicken marinade, a high performance BBQ steak marinade or the flavours and aromas of a warm and colourful Tandoori? *Essenso Marinade Easy Fix* offers you the optimal solution.

#### **Essenso Marinade Complete**

Marinades not only provide taste and appearance, but also functional advantages and solutions. It is this area where DERA excels in its knowledge and experience regarding food, equipment and processing. *Essenso Marinade Complete* offers you complete solutions for improved succulence, attractive shiny aspects and distinctive flavour profiles. Added benefits of *Essenso Marinade Complete* include yield improvement and increased juiciness of different types of meats. Like all other Essenso Marinade solutions, *Essenso Marinade Complete* is available in traditional, local tastes as well as in typical ethnic flavours.

## Taste is the essence.

#### **Essenso Marinade Oil Based**

Essenso Marinade Oil Based is a range of oil based marinades, available in pails of 3 kg and 12 kg. These marinades are used with meat, fish, prawns, but are also excellent flavour providers for sauces, stir fries and dips. *Essenso Marinade Oil Based* marinades are ideal for barbecuing, grilling, griddling, dry fry pan or oven cooking. They offer a glossy appearance, with visual particles where wanted. Thinking about Mediterranean Lemon & Herb, or Jamaican Jerk, or Chipotle Cajun? *Essenso Marinade Oil Based* provides you a variety of tailor-made solutions for your taste creation.

#### **Essenso Marinade Water Based**

Essenso Marinade is now also available in water based marinades. For ultimate freshness of tastes like coriander leaf, the typical flavour of soy sauce, the aromatic pungency of chilli peppers, *Essenso Marinade Water Based* brings you exciting new opportunities.

#### **Why choose Essenso Marinade ?**

- Essenso Marinade is a complete marinade concept, specially developed for industrial food processors.
- Essenso Marinade is available in more than 100 varieties, and can be custom developed for functionality and to be specific to the method of processing.
- Essenso Marinade not only encompasses a range of established ethnic varieties, but particularly embraces the specific mainstream flavours that are typical for your country.
- Essenso Marinade benefits from the constant developments made by a team of flavourists, and can rely on the technical know how and experience of DERA specialists.
- Essenso Marinade takes advantage of the strong local technical and commercial organisation of DERA in your country, your best guarantee for an optimal service level.

In partnership with its customers, DERA provides innovative ingredient solutions for the food industry.
